axlebook

Brand guide

Every mile, on the record.

V1.0 · NOVEMBER 2026

A logbook with a gauge on the cover.

Axlebook is the self-hosted, open-source maintenance tracker for people who keep their own records. The brand borrows from two objects every owner knows: the glovebox service log and the instrument cluster. Calm graphite, precise mono numerals, one signal-orange needle that points at what needs attention.

TAGLINE

Every mile, on the record.

USE AS-IS. NEVER REWORD.

DESCRIPTOR

Self-hosted vehicle maintenance tracker

FOR STORES, READMES, META DESCRIPTIONS

NAME

Axlebook in text, axlebook in the wordmark

NEVER AXLEBOOK, AXLE BOOK, AXLEBOOK

VOICE: SOUND LIKE A GOOD MECHANIC

- Plain and specific: "Oil change is 312 miles overdue."
- Numbers carry units, always: 19.4 mpg, $0.31/mi, 84,217 mi.
- Sentence case for everything. Verbs first on buttons: "Log fuel".
- Short. One idea per sentence.

AVOID

- Hype and exclamation marks: "Supercharge your garage!"
- Blame or nagging: "You forgot your oil change."
- Emoji in product UI. Car puns in error messages.
- Vague time: "soon". Say "in 18 days" or "in 2,140 mi".

The mark

A logbook seen from the front, with a gauge on its cover and a bookmark at the page you're on. The needle is always orange and always points up and right.

1 · Cover frosted glass slab, spine on the left

2 · Page edge depth; a log that's being used

3 · Gauge 264° arc, seven ticks

4 · Needle signal orange, 42°

5 · Bookmark orange, notched, breaks the top edge

DEFAULT

LIGHT

CLEAR

FLAT

FLAT LIGHT

MONO

Glass appearances are for app icons at 64px and up. The flat mark is for favicons, print, embroidery and anywhere a single flat colour is needed. Mono is for one-ink use.

Lockups

The icon and wordmark always appear together at this ratio. Keep clear space equal to the bookmark's width (¼ of the icon) on every side.

Don't

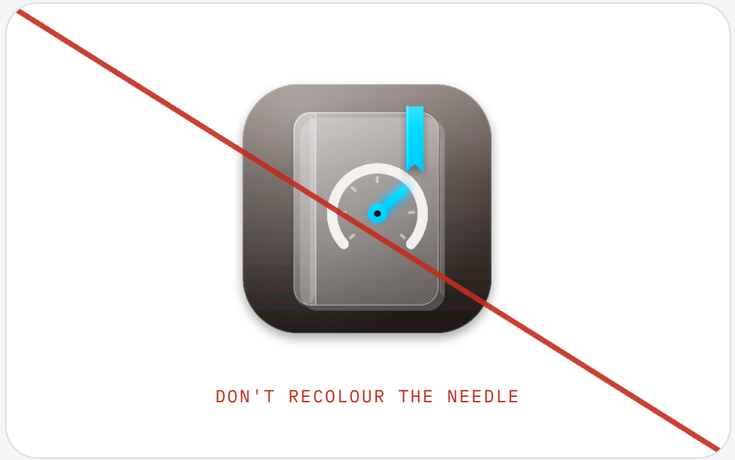

Use the supplied files. If a file you need is missing, ask rather than rebuilding one.

DON'T STRETCH OR SQUASH

DON'T ROTATE

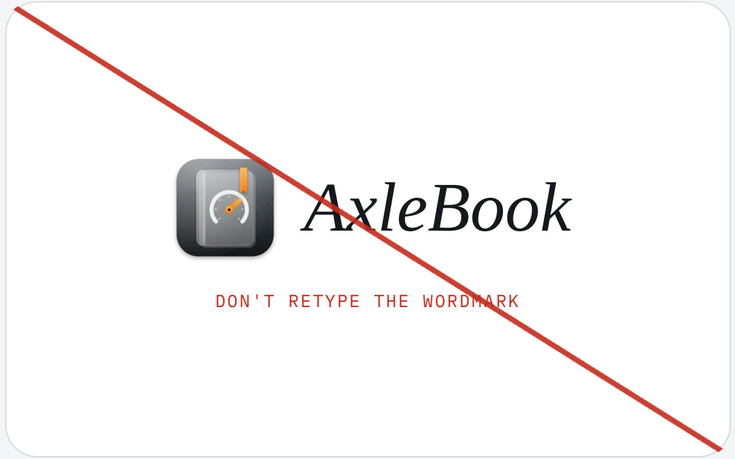

DON'T RECOLOUR THE NEEDLE

DON'T ADD GLOWS OR EFFECTS

DON'T RETYPE THE WORDMARK

Colour

Graphite does the work; orange points at things. Each swatch shows its light-theme value on the left and dark-theme value on the right. Status colours always come with a word or icon, never colour alone.

graphite
`#1C1F22` · `#1C1F22`
Brand dark: icon ground, social backgrounds

orange
`#FF8A00` · `#FF9A1F`
Brand accent, primary action fill, the needle

on-graphite
`#F2F4F5` · `#F2F4F5`
Text and marks on graphite

surface
`#F4F5F6` · `#121416`
Page background

surface-raised
`#FFFFFF` · `#1B1E21`
Cards, sheets, inputs

ink
`#16191C` · `#F2F4F5`
Primary text and icons

ink-muted
`#5A6169` · `#A3AAB1`
Labels, metadata, units

orange-text
`#AD5200` · `#FFAB4A`
Orange as text: links, active nav

line-strong
`#7D848B` · `#6C737A`
Input and checkbox borders

yellow
`#7A5900` · `#F2C94C`

RULE

Icons label, they don't decorate. Pair every icon with text except in the compact nav rail, where it gets a tooltip.

In the product

The brand inside the app is quieter than on the cover: neutral surfaces, orange reserved for the one primary action per view and the active nav item.

BUTTONS

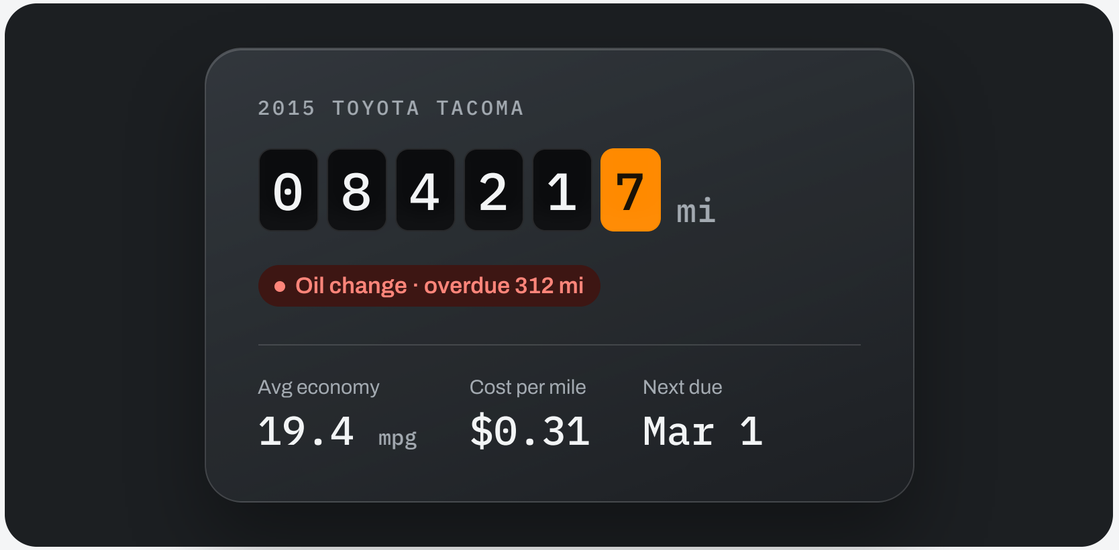

Log fuel | Add record | View history | Delete vehicle

STATUS

Overdue 312 mi | Due in 18 days | In 2,140 mi
